

# Body Weight HRWLIP\_BWT\_001

## Purpose

The body weight test measures the weight of the mouse in a time series, allowing monitoring of its evolution; also, it is required in many other procedures.

## Equipment

- Laboratory Balance

## Procedure

- Place a cage containing mice on an operation table
- Remove a mouse from its cage. Determine and record its weight.
- Return the mouse to the cage or continue with a procedure.

## Notes

The body weight of each mouse is to be measured monthly. Optional additional weighs may also be recorded.

## Parameters and Metadata
