# **Body Weight BCMLA\_BWT\_001**

## **Purpose**

The body weight test measures the weight of the mouse in a time series, allowing monitoring of its evolution; also, it is required in many other procedures.

### **Equipment**

Laboratory Balance

#### **Procedure**

- Place a cage containing mice on an operation table
- Remove a mouse from its cage. Determine and record its weight.
- Return the mouse to the cage or continue with a procedure.

#### **Notes**

The body weight of each mouse is to be measured weekly. Optional additional weighs may also be recorded.
